PINEY RIDGE CHURCH PLANS REVIVAL

Revival services at Piney Ridge United Methodist Church in Pamplin will take place September 23 through September 28th with services beginning nightly at 7:30 p.m.

Evangelist James Maharaj, a convert to Jesus Christ from Hinduism, will be the guest speaker and Rev. and Mrs. James Maharaj will present special music every evening along with spirited congregational singing.

Born on the Island of Trinidad in the West Indies, his father who had migrated from Calcutta, India, was a Hindu Priest and a religious leader of his people. Upon the death of his father, the priesthood fell on James Maharaj as the eldest son. Shortly after this he contracted tuberculosis and was sent to a sanitorium to die. It was there he heard the message of salvation for the first time and was converted from Hinduism to Christianity. God saw fit to heal his physical body and in turn he dedicated his life to becoming His ambassador.

The Rev. Durward E. Fox is pastor of the church. The public is invited to attend.

Raiders Rip Golden Eagles 35-6

Steve Doss scored three touchdowns last Saturday night as the strong defense gave the Appomattox Raiders a 36-6 win over the Staunton River Golden Eagles in a Seminole District football game played at Appomattox. The win makes Appomattox 1-0 in the district and 1-1 over all while the Golden Eagles are now 1-1 in district and overall.

Kenneth Almond brought the crowd to their feet as he took the opening kickoff for the Raiders and went up the middle of the field for 85 yards and a touchdown with 11:48 left in the first quarter. The run for extra point failed. Appomattox got a safety with 2:50 left in the first quarter when Raider Barnett tackled SR quarterback Terry Mullins in the end zone. Staunton River failed to get the free kick and Appomattox started on the SR 20. Glenn Doss then ripped 33 yards for a touchdown with 7:40 left in the first quarter and added the two point conversion run. The Raiders led 16-0 as the first quarter ended.

The Raiders recovered a SR fumble on the SR 30 in the second quarter and after a 10 yard gain Doss then picked up 22 yards for his third TD of the night with 4:05 left in the half and the Raiders carried a 22-0 lead into the locker room at the half.

Early in the third quarter the Raiders got another safety as Raider Barnett Smith tackled Glenn Doss in the end zone on an attempted punt on a bad snap from center with 9:41 left in the third quarter.

Appomattox got their final touchdown of the game with 3:55 left in the fourth quarter as Glenn Doss shot 48 yards for the score and his third TD of the night. With 3:55 left in the game and the ball on the SR 20 yard line Quarterback Kelso picked off a Staunton River pass on the SR 40 and went into the end zone for the touchdown. Kelso added the extra point to make the score 36-0 with 1:12 left in the game. Both extra point tries failed.

Not only Golden Eagle touchdowns came in the third quarter as when Mike Johnson returned from three yards out with 7:37 left in that period. The extra point failed.

Johnson was the big rusher for Appomattox and the game with 49 yards in 11 carries. The Raider fullback with plus yards was Mike Gallier, 16 yards in three carries.

The whole Raiders defense played a strong game as Dickie Almond had a fumble recovery and an interception and was in on the tackles, nine unassisted. Kenneth Almond, Warren Hunter and Coy Williamson were the other three Raiders with interceptions. Robert Wright and James Hunter had the other two fumble recoveries. Mike Gallier had seven unassisted tackles and knocked down four passes on defense. Johnson also had seven tackles and assisted on four others and Hunter had five tackles and two assists.

The Raider defense held the Golden Eagles to minus nine yards rushing in the first half and a net 53 for the game. They got the opponent five times behind the line of scrimmage and the longest gain on the ground was one of 13 yards. They gave up 98 yards in passes as SR completed only 11 of 27 attempts.

Plan Now For Next Year

Even though farmers haven't finished harvesting and marketing this year's crops, in Appomattox County, it's not too soon for them to begin planning how to sell the things they'll raise next season, a local farm official points out.

"This is especially true if producers want to consider new marketing methods not locally available and discuss them with those in the trade with whom they normally deal,"says James R. Ford, Jr., Chairman of the Appomattox County ASC Committee.

There are several forward marketing methods by which farmers can fix their per unit prices for 1974 crops, either now or at a later date when the market looks best to them, the chairman said.

Market demand for food and fiber at home and abroad is signaling the need for full production next year, he pointed out. Program changes already announced for '74 will permit use of all land for crop production.

"Even though there is strong demand and good farm prices, producers will want to look into the best ways to market their crops now that the Government is no longer involved in holding hugh Commodity Credit Corporation (CCC) stocks of grain," Mr. Ford said. "This includes reviewing the market - as many are already doing - and picking both the price and the method of locking in price that works best for them and guarantees a fair return on the land, labor, capital, and management skills that they invest in crops and livestock each year."

Government loans on commodities will continue to be available to farmers who need them for financing, Mr. Ford pointed out. However, in most other ways the government's influence on production and marketing of agricultural commodities has been eliminated for the first time in years.

"This means more attention to marketing by farmers, and both the trade and government are attempting to provide producers with information on ways to lock in profits through forward pricing," the chairman said.

He pointed out that the county ASCS office has available reprints of several magazine telling about marketing methods being used by producers in various parts of the country. These are offered as background information so that farmers who are interested in different marketing techniques can see what is being done elsewhere, the chairman added.
